COMMON AILMENTS.

Common ailments affect all of us -often without warning! Enjoying unlimited access to #DrCallAway. It equips you to beat the day-to-day ailments and illnesses, from the colds and flu, to upset tummies, cramps and aches.

An attentive medical doctor will hear you out, share some facts and recommend a course of action. Both your wallet and medial scheme benefits will benefit from the front line “gate keeping” too.

CHRONIC CONDITIONS.

#DrCallAway enhances outcomes by empowering and informing patients, encouraging compliance through improved understanding and ensuring that patients know and buy in to the importance of the treatment and management they are receiving for their chronic conditions. Unlimited telephonic access to #DrCallAway also promotes improved monitoring and better risk identification and mitigation by the patients. Overall, these benefits translate into improved treatment

MEDICINES.

We often grapple with what is the most suitable medicine, how to take the medicine we've received, what side-effects to look out for and how the medicines will in fact work over time. On more than one occasion we have all stared down at a parcel of medicine and failed to remember "what is what". #DrCallAway gives you access to a medical doctor who will help you make sense of it all, without interfering with any medicines you have been prescribed. #DrCallAway adds a nice layer of peace of mind

PRIVACY

Every member who registers for #DrCallAway rests comfortably in the knowledge that the service and all interactions are strictly confidential. Any issue, however sensitive, can be raised and discussed without reservation. Telephonic engagement also gives every caller a certain boldness to raise matters they may find hard to do in a face to face consultation and we all know that the best care can only ever be pursued when the extent of an issue has been fully disclosed.

HOLDING ONTO YOUR CASH

Over and above all of the many benefits #DrCallAway affords you, the service is also an excellent way to save money and your time getting to a pharmacy or GP. By speaking to a medical doctor before taking time off work, travelling to a healthcare delivery point or buying a lot more than you need at a pharmacy, you make every Rand last that much longer.

MEDICAL SCHEME BENEFITS.

There is no need to ignore symptoms and ailments because your medical scheme benefits have been depleted - you aren't left high and dry anymore. Enjoy telephonic access to a medical doctor as often as you need. With not much to lose and hardly any reason not to sign up, why miss out on beneficial service that will help you be your better and healthier you?
